## DF/06 Non-Organic Manure Input Derogation

### Reason for use:

For producers to apply for approval to import non-organic manure onto an organic holding.

### Conditions:

This form **must** be completed and sent to QWFC for approval before purchase of non-organic manure.

Justification, such as a soil analysis report, **must** be provided for the fields that require the application of non-organic manure.

If derogation is granted, non-organic manure **must** be composted on farm for **at least 6 months** before application.

Records must be available to demonstrate application according to the terms specified in this derogation

**QWFC may request further information before a decision can be made.**
